Governing Board
San Joaquin Valley Unified Air Pollution Control District

This Comprehensive Annual Financial Report (CAFR) of the San Joaquin Valley Unified Air Pollution Control District (District) is for the fiscal year ended June 30, 2016. Responsibility for the accuracy of the data, the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and reported in a manner designed to present fairly the financial position, changes in financial position, and all disclosures necessary to enable the reader to gain an understanding of the District's financial activities.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

ABOUT THE SAN JOAQUIN VALLEY UNIFIED AIR POLLUTION CONTROL DISTRICT

Background

The District began operation on March 20, 1991 as a unified air pollution control district operating under the provisions of Sections 40150 through 40162 of the California Health and Safety Code. The District is a regional agency responsible for air quality management in the eight counties in the San Joaquin Valley Air Basin: San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, Tulare and the Valley portion of Kern. The San Joaquin Valley Air Basin is the largest air basin in California and covers about 25,000 square miles (see map next page). The San Joaquin Valley (Valley) is one of California's fastest growing population areas, with a total estimated population of about 4.04 million residents in the calendar year 2016. Major urban centers exist in Stockton, Modesto, Fresno, Visalia, and Bakersfield.

The District works with local, state and federal government agencies, the business community and the residents of the Valley to reduce emissions that create harmful air quality conditions.

The District is governed by a fifteen member Board that consists of one representative from each of the Boards of Supervisors of all eight counties, five Council Members from Valley cities and two Governor-appointed public members. These locally elected and appointed officials ensure that the implementation of state and federal air pollution mandates in the Valley are tailored to local conditions and responsive to local needs.

San Joaquin Valley Unified Air Pollution Control District Jurisdictional Boundaries

Achieving Cleaner Air in the San Joaquin Valley

For the 2012-2014 period, the Valley's air quality data demonstrated attainment of the federal 1-hour ozone standard, and subsequently the District submitted an official redesignation request to the California Air Resources Board and U.S. Environmental Protection Agency (EPA) on July 13, 2015. On July 18, 2016, the EPA published in the Federal Register a final action determining that the San Joaquin Valley has attained the 1-hour ozone national ambient air quality standard. By contrast, in 1996 the Valley experienced 281 individual hour exceedances of this hourly standard throughout the eight-county region. Reaching this milestone has been the key focus of the Valley's air quality

management strategies for more than two decades. In 2004, the U.S. EPA classified the Valley as “Extreme” nonattainment for this standard, meaning that reaching the standard at the time was deemed impossible. The Valley is the first and only region in the nation to attain a standard after being classified as “Extreme” nonattainment by the federal EPA.

Additionally, in 2015, the San Joaquin Valley experienced the best summer ozone season in recorded air quality history. In fact, July 2015 alone recorded the best air quality for the month of July in the history of monitoring air quality in the San Joaquin Valley. Although the May to July 2015 time period had times of good atmospheric dispersion from passing storms, it also had a number of high pressure stagnation events with soaring temperatures with strings of triple digits, plentiful sunshine, and stagnant wind flow, all contributing to the potential for the formation of high concentrations of ozone. Despite these challenges, the Valley has shown tremendous improvement in ozone air quality this year compared to past years, and set new records for a number of metrics across a monitoring period of over 35 years.

During the wood burning season of 2015-2016, the Valley marked a new record for the cleanest air quality the region has ever experienced for this time of the year. The Valley set new records across a number of metrics, placing the Valley back on track toward attaining the federal PM2.5 standards.

These improvements would not be possible without the success of the District’s control strategy through its various attainment planning efforts, its robust incentive programs, and the commitment from the Valley’s stakeholders in doing their part to reduce emissions as much as possible.

The District has the primary authority in regulating stationary sources of pollution, such as factories, businesses, and industries. Although state and federal laws preempt the District from setting new tailpipe standards for mobile sources of emissions, the District implements indirect source regulations and incentive-based programs to reduce emissions from on-road and off-road sources of air pollution. The primary authority to regulate emissions from mobile sources of air pollution, such as cars and trucks, lies with the state and federal government. In achieving clean air goals, the District partners with a number of other governmental agencies:

- The **federal government**, primarily through the EPA, sets health-based standards for air pollutants. The EPA also oversees state and local actions to improve air quality.
- The **state government**, through the California Air Resources Board (ARB) and the Bureau of Automotive Repair, develops programs to reduce pollution from vehicles and consumer products. The state also oversees the actions of local air districts and city and county agencies.

- **County and city governments** are responsible for land-use planning to address issues such as “urban sprawl” as well as transportation and mass transit planning.

Progress in cleaning our air is often measured in relation to the health-based standards established by the federal government. The State of California also establishes ambient air quality standards that serve as ultimate goals in achieving clean air.

In a regulatory sense, the road to cleaner air can be described as follows:

- EPA establishes the health standards.
- EPA identifies the regions that do not meet the new standards.
- EPA establishes deadlines for meeting the new standards and for submitting plans to get there.
- In collaboration with ARB, the District develops air quality plans outlining strategies needed to reduce emissions and meet the new standards.
- ARB forwards the plans for EPA approval after it reviews, approves, and adds state strategies.
- The District, ARB, and EPA adopt and implement plan commitments.
- The District provides routine updates and progress reports.

How the District Does Its Job

The District is a public health agency whose mission is to improve the health and quality of life for all Valley residents through efficient, effective and entrepreneurial air quality-management strategies. Towards that end, the District conducts the following activities:

- Develops and adopts air quality plans outlining strategies needed to reduce emissions.
- Develops, adopts and implements rules and regulations to reduce emissions.
- Leaves no stone unturned in crafting, promoting, and implementing innovative emission reduction strategies to achieve early attainment.
- Administers an efficient and comprehensive permitting system for stationary sources and offers meaningful business assistance to the regulated community in meeting applicable regulations.
- Maintains and updates an inventory of emissions from various Valley sources on an ongoing basis.
- Maintains an active and effective enforcement program.
- Administers voluntary incentive grants offering financial assistance to reduce air pollution.
- Operates an extensive air monitoring network to measure air pollutants throughout the Valley and track air quality improvements.
- Conducts comprehensive public education and outreach.

- Continues to set high standards in legal activities.
- Collaborates with state and local agencies.

MAJOR ACCOMPLISHMENTS FOR 2015-16

Air Quality Plans

The District has written several air quality plans (State Implementation Plans, or SIPs) over the years that serve as road maps for the new measures needed for the Valley to reach federal air quality standards. The District's air quality plans include emissions inventories showing the sources of air pollutants, evaluations of how well different control methods have worked, and a strategy for how air pollution will be further reduced. The air quality plans also use computer modeling to estimate future levels of pollution and to ensure that the Valley will meet air quality goals as expeditiously as practicable. In June 2016, the District Governing Board adopted the *2016 Plan for the 2008 8-Hour Ozone Standard*. The plan was subsequently adopted by ARB and then submitted to EPA.

The District continues to implement commitments in previously adopted air quality plans and will prepare for upcoming attainment plans. Upcoming air quality plans will include plans for PM2.5 standards under the federal Clean Air Act and EPA's recently promulgated 2015 8-hour ozone standard with a yet to be determined EPA due date.

Rules and Regulations

The District continues its leadership in developing groundbreaking regulatory strategies to reduce emissions. Tough, innovative rules such as the District's rules for indirect source review, residential fireplaces, glass manufacturing, and agricultural burning have set benchmarks for California and the nation. New rule commitments for future years will be considered in upcoming air quality plans. The following rule actions highlighted fiscal 2015-2016:

Boilers, Steam Generators, and Process Heaters – 2.0 MMBtu/hr to 5.0 MMBtu/hr (Rule 4307): Rule 4307 reduces emissions of NO_x, carbon monoxide, sulfur, and particulate matter from boilers, steam generators, and process heaters. The amendment clarified Rule 4307 to allow tree nut pasteurizers to be fired on LPG in addition to PUC quality natural gas.

New and Modified Stationary Source Review Rule (Rule 2201): The District's New Source Review (NSR) Rule provides a regulatory mechanism for allowing continued economic growth in the San Joaquin Valley while minimizing the amount of emission increases due to this growth. The District's NSR Rule is designed to meet both the state and federal NSR requirements for nonattainment areas and applies to new and modified stationary sources that emit NO_x, VOC, particulate matter, sulfur oxides, carbon monoxide and other pollutants subject to District permitting requirements pursuant to District Rule 2010 (Permits Required). In April 2015, EPA finalized reclassification of the Valley as Serious

nonattainment for the 1997 PM_{2.5} standard. This reclassification required the District to amend Rule 2201 to lower the PM_{2.5} major stationary source threshold from 100 tons per year to 70 tons per year.

Permitting

The District has the responsibility for issuing or denying permits, registrations and plan approvals for more than 30,000 non-mobile sources of air contaminants, and for tracking and assessing the impacts of these facilities' annual pollutant emissions. During the fiscal year 2015-16 reporting period, permitting activities included:

- 2,939 Authority to Construct permits issued
- 59 new Permits to Operate issued
- 233 Permit-Exempt Equipment Registrations issued
- 27 new Title V permits issued to 3 facilities
- 1,758 Title V permit renewals issued to 42 facilities
- 753 Title V permit modifications
- 227 Conservation Management Practices plans issued
- 248 Emission Reduction Credit certificates issued or transferred
- 686 toxic air contaminant risk-management reviews performed
- 6,603 annual emissions inventory statements and surveys processed
- 1,807 California Environmental Quality Act (CEQA) review requests processed
- 340 CEQA comment letters
- 159 CEQA documents prepared
- 207 Indirect Source Review applications processed
- 280 Employer Trip Reduction Implementation Plans (eTRIP)

Enforcement

The District maintains an active and effective enforcement program to assure real and continued reductions in emissions. The District inspects sources of air pollution, including all facilities with permits issued by the District. When sources are found in violation of District rules and regulations, citations are issued and monetary fines are levied. For 2015-16:

- 36,879 units inspected
- 2,297 Notices of Violation issued
- 2,719 public complaints investigated
- 1,809 open burn sites inspected
- 2,660 incentive funding units (i.e., trucks, engines) inspected
- 579 asbestos projects reviewed and inspected

Voluntary Incentive Grants

To attain the current health-based air quality standards, the Valley must achieve an additional 90% reduction in emissions from current levels. The District,

however, has limited legal authority to achieve these emission reductions, as mobile sources comprise 85% of the Valley's NOx emission inventory. Thus, District regulations alone will not bring the Valley into attainment of federal air quality standards. Voluntary incentive programs play a critical role in achieving and accelerating the reductions required for the Valley's attainment.

Since inception, over \$1.4 billion in public/private investment in clean air projects has been made through these incentive programs, resulting in more than 128,000 tons of emission reductions. During the 2015-16 fiscal year, the District executed more than 7,500 agreements for more than \$72 million. These projects are expected to reduce more than 6,300 tons of emissions.

The District's incentive program has become a model for grant programs throughout the State. In recent state audits, the District was noted for its efficient, robust and effective use of incentive grant funds in reducing air pollution. The District funds the following types of projects:

- Diesel agriculture irrigation pump replacements
- New Electric agricultural irrigation pump purchase
- Emerging technology demonstration projects
- Electric forklift purchases
- Bicycle path construction
- On-road and off-road vehicle engine replacements, engine retrofit and vehicle replacements
- Wood-stove replacements
- School bus replacements, retrofits, and CNG tank replacements
- Gross-polluting vehicle crushing and replacements
- New, clean vehicle purchases
- Transit pass subsidies
- Locomotive replacements
- E-mobility equipment
- Vanpools
- Lawn and garden equipment
- Alternate fuel mechanic training
- Advanced Transit and Transportation
- Electric Vehicle Charging Stations for public use

The District has received high marks for efficiency and accountability in our administration of these programs by ARB and EPA auditors in the past. In fact, District incentive program policies and procedures are often used as examples of "best practices" that other programs throughout the State can emulate, and the District has been awarded administration of grant funds for other air agencies as a result.

Comprehensive Public Education and Outreach

The District's Outreach and Communications Department continues to set the standard for innovative, effective and efficient outreach strategies and campaigns. Operating with a budget much less than other air management agencies statewide, the District's outreach department nonetheless is just as effective in conveying critical public information, policy and air quality news.

The District's Outreach and Communications team, a highly skilled group of communications professionals with expertise in public relations, media, graphics and web design, audio-video production and event organization, continues to expand its activities and District messaging in the Valley air basin through programs tailored to each sector in the broader community. The District continues to spearhead many important seasonal campaigns, including:

- **Check Before You Burn:** This annual multimedia, multilingual outreach campaign runs from November through February, and is credited with the Valley achieving unprecedented improvements in wintertime air quality.
- **Drive Clean:** Electric vehicle workshops were hosted in partnership with the California Center for Sustainable Energy (CCSE) in Fresno and Modesto. The workshops featured presentations by the District and CCSE staff, as well as representatives of utility providers and owners' panels, about the technology behind the newest plug-in vehicles, generous incentives for their purchase and the experience of driving them. Attendees were given the opportunity to investigate a variety of electric vehicles on site, as well.
- **Tune In, Tune Up** is a program designed to identify and repair high-emitting vehicles. The Tune In, Tune Up program is operated in partnership with Valley Clean Air Now, which has a long history of successfully implementing this program, and excels at reaching residents in environmental justice communities who otherwise may not be able to afford costly vehicle repairs. Reaching this key demographic is essential as the emission reductions are most needed in low-income communities, which are historically home to the greatest percentage of high-emitting vehicles. Through weekend events held throughout the Valley in 2015-16, participating residents could have their vehicles screened to determine if they qualified for emissions-related repairs at little to no cost to them. In the Tune In, Tune Up program, vehicle owners bring their vehicles to one of the program's weekend events, where an emissions test is performed to determine the likelihood of that vehicle failing the required biennial smog test. Owners of vehicles that fail this initial screening are provided with vouchers that are redeemable at participating smog shops for up to \$500 in emissions-related repairs. Once the vehicle is repaired, confirmatory smog tests are conducted that can then be used for vehicle re-registration purposes. As a recent new feature of this program, vehicles better suited

for replacement are identified and residents are offered incentives to assist them in replacing their high polluting vehicle with a clean vehicle.

FACTORS AFFECTING FINANCIAL CONDITIONS

The District's operations are primarily supported by permit and auto registration fees, as well as state and federal grant revenue. In addition, the District receives penalties, settlements, interest and other miscellaneous revenues.

During this period, the District continued to devise and implement a number of efficiency and streamlining measures aimed at minimizing operating costs while delivering a high level of customer service. Additionally, through strict position control, the District was able to achieve 7% in salary savings. Despite the District's commitment to cost-cutting measures, the unavoidable rise in operating costs necessitated a modest permit fee increase. The District amended 17 District fee rules on April 16, 2015. Amendments included a fee increase of 4.8% on July 1, 2015, and a second increase of 4.4% took effect on July 1, 2016.

Long-term Financial Planning

While the District's permit fee and DMV revenues are relatively stable, the current state of the economy continues to dampen any growth in these fees. Operating costs, however, continue to grow due to inflation, increased state and federal mandates, and rising pension costs. In light of rising pension costs and unfunded pension liability, a key priority for the District has been to curb the rising costs and increase employees' pension contributions. In an effort to slow escalating pension costs, the District negotiated with employees to add a second retirement tier for new employees hired on or after July 31, 2012. During the most recent Memorandum of Understanding (MOU) negotiation, the District was able to negotiate a higher pension contribution from employees. The District's share of the pension cost was reduced correspondingly as the employees took on a greater contribution share. The approved MOUs establish a 3-year phased in approach to bring employees up to a 50/50 total normal cost share on an expedited schedule, rather than waiting until January 1, 2018 to begin the pursuit of greater cost-sharing with employees. In exchange for these savings, during the terms of these MOUs, the employees were offered a corresponding pension offset pay. However, in future years if the total normal retirement cost continues to increase, the District will realize additional savings through the greater agreed upon cost share with employees. These new agreements and continued implementation of the California Public Employees' Pension Reform Act of 2013 (PEPRA) is expected to slow down the rate of increase in the District's pension costs. The District will continue to look for additional opportunities within the bounds of applicable laws to reduce the District's long-term pension costs.

FINANCIAL CONTROLS

Annual and Independent Audit

It is the policy of the District to have an annual audit performed by an independent certified public accounting firm appointed by the District's Governing Board. Brown Armstrong Accountancy Corporation conducted the independent audit of the District's financial statements for the fiscal year ended June 30, 2016. The auditor's unmodified opinion on the basic financial statements is included in the Financial Section of this report.

As part of the District's annual audit engagement, the auditors review the District's internal control structure, as well as compliance with applicable laws and regulations. The results of the District's annual audit for the fiscal year ended June 30, 2016 provided no instances of material weaknesses in connection with the internal control structure or violations of applicable laws and regulations.

As a recipient of federal and state financial resources, the District is required to undergo an annual single audit. The information related to this single audit, including the Schedule of Expenditures of Federal Awards, findings and recommendations and auditor's reports on the internal control structure and compliance with applicable laws and regulations, is included in a separately issued report.

Relevant Financial Policies

The District's budget process is mandated by Section 40131 of the Health and Safety Code. Section 40131 places the following three requirements on the adoption of the District's annual budget:

1. The District shall notice and hold a public hearing for the exclusive purpose of allowing the public an opportunity to comment on the Budget. This hearing must be separate from the hearing at which the District adopts the Budget.
2. The District must have summary information regarding the Budget available to the public at least 30 days prior to the public hearing.
3. The District must notify each person subject to fees imposed by the District in the preceding year of the availability of the Budget summary information.

In addition to Health and Safety Code, the District Administrative Code requires the Executive Director/Air Pollution Control Officer to present recommended budget to the Board prior to June 30th.

Internal Accounting Controls

Management of the District is responsible for establishing, maintaining and evaluating the District's accounting system with an emphasis on the adequacy of

an internal control structure. The internal accounting controls are designed to: ensure that the assets of the District are protected against loss, theft or misuse; ensure the reliability of adequate accounting data for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America; and provide reasonable, but not absolute, assurances that these objectives are met. The concept of reasonable assurance recognizes that the costs of a control should not exceed the benefits likely to be derived from it and that the evaluation of costs and benefits require estimates and judgment be made by management.

The District's internal control evaluations occur within the above framework, which ensures adequate safeguard of the District's assets and reasonable assurance of proper recording of financial transactions.

Budgetary Control

In accordance with the provisions of the State Health and Safety Code Section 40131, the District's Formation Agreement, and the District's Administrative Code, the District prepares and legally adopts a final balanced budget on or before June 30 of each fiscal year. The final adopted budget is available for review on the District's Website, www.valleyair.org.

Budgetary control is exercised at the object level. All amendments or transfers of appropriations between these levels are authorized by the Executive Director/Air Pollution Control Officer (APCO) and must be approved by the District Governing Board. Supplemental appropriations financed by unanticipated revenues also must be approved by the Board.

Expenditures, except for capital outlays, are controlled at the object level for all program budgets within the District. Capital outlays are controlled at the sub-object level. There are no excess expenditures over the related appropriations in any object. Budgeted amounts are reported as amended.

Encumbrances, which are commitments related to executory contracts for goods or services, are recorded for budgetary control purposes. Encumbrance accounting is utilized for budgetary control and accountability and to facilitate effective cash planning and control.

Unencumbered appropriations lapse at year-end and encumbrances outstanding at that time are reported as assigned fund balance for subsequent year expenditures.

The accounting principles applied in developing budgetary expenditures data differ from the amount reported on the financial statements in conformity with accounting principles generally accepted in the United States of America. Reconciliation of the differences is presented in the Required Supplementary Information section of this report.

AWARDS AND ACKNOWLEDGMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the San Joaquin Valley Unified Air Pollution Control District for its comprehensive annual financial report for the fiscal year ended June 30, 2015. This was the third consecutive year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, the District must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The dedicated services of the District Finance team made the preparation of our comprehensive annual financial report possible.

Recognition is also given to the Governing Board for their leadership and support and to all employees of the District who continue to promote technology and improve operations to accomplish the District's mission of protecting public health from air pollution in an efficient and cost effective manner.

Respectfully submitted,

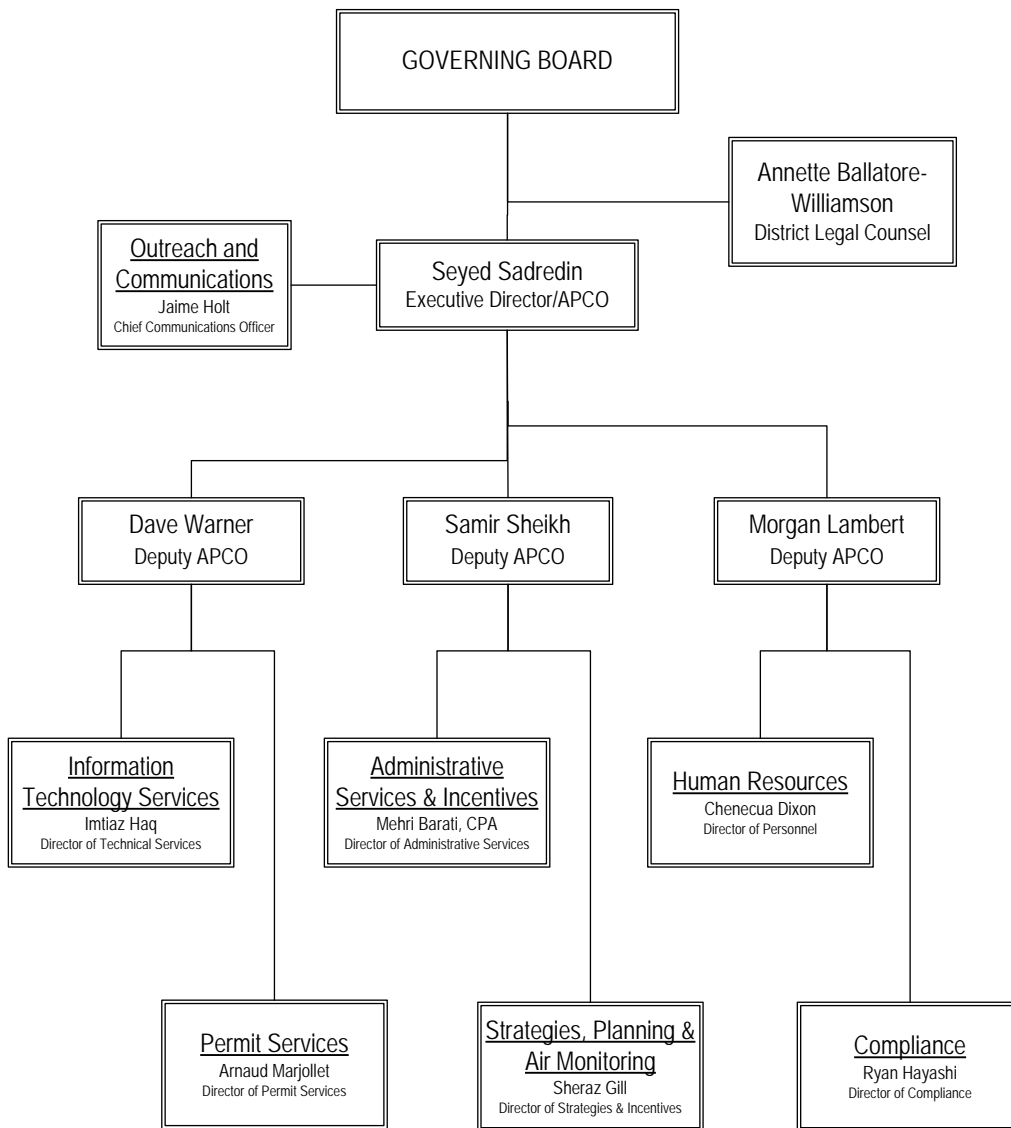

Seyed Sadredin

INDEPENDENT AUDITOR'S REPORT

To the Governing Board
San Joaquin Valley Unified Air
Pollution Control District
Fresno, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and General Fund of the San Joaquin Valley Unified Air Pollution Control District (the District) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and General Fund of the District, as of June 30, 2016, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison schedule for the General Fund, Kern County Employees' Retirement Association – Schedule of the District's Proportionate Share of Net Pension Liability, and Schedule of the District's Pension Contributions as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 27, 2016, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

San Joaquin Valley Unified Air Pollution Control District

Management's Discussion and Analysis

June 30, 2016

Our discussion and analysis of the San Joaquin Valley Unified Air Pollution Control District's (District) financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2016. Please read it in conjunction with the transmittal letter and the basic financial statements.

A. Financial Highlights

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$93.9 million (*net position*). Of this amount, \$105.7 million is restricted for specific purposes and \$9.6 million represents the net investment in capital assets. Both of these are offset by a negative balance of \$21.4 million (*unrestricted net position*), which is primarily a result of the District's unfunded pension liability.
- The District's total net position increased \$1.5 million as compared to the prior fiscal year. The majority of this increase was related to increased license and permit fees received this year combined with a decrease in grant expenditures.
- At the close of the current fiscal year, the District's Governmental Fund reported a total fund balance of \$151.0 million at year-end, a \$2.1 million increase as compared to the prior year-end balance. Approximately 8.72% of this amount (\$13.2 million) is available for spending at the government's discretion (*unassigned fund balance*).
- At the end of the current fiscal year, unrestricted fund balance (the total of the *assigned* and *unassigned* components of *fund balance*) for the general fund was \$44.3 million, or approximately 40.7% of total general fund expenditures.

B. Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements have three components: 1) Government-wide Financial Statements, 2) Fund Financial Statements, and 3) Notes to the Basic Financial Statements. The District's Comprehensive Annual Financial Report (CAFR) also includes required supplementary information to the Basic Financial Statements. In general, the purpose of financial reporting is to provide external parties that read the financial statements with information that will help them make decisions or draw conclusions about an entity. In order to address the needs of as many parties as reasonably

Management's Discussion and Analysis

possible, the District, in accordance with required reporting standards, presents government-wide financial statements and fund financial statements.

Government-Wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to commercial enterprises or a private-sector business. These financial statements include the Statement of Net Position and the Statement of Activities.

The Statement of Net Position presents information on all of the District's Assets and Deferred Outflows of Resources and Liabilities and Deferred Inflows of Resources with the difference reported as Net Position. This difference is comparable to total stockholders' equity presented by a commercial enterprise. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities reports the net cost of the District's activities by program and is prepared on the full accrual basis of accounting. Revenues and expenses are recognized as earned and incurred even though they may not have been received or paid in cash.

The focus of the Statement of Activities is on the cost of various program activities performed by the District. The statement begins with a column that identifies the cost of each of the District's major programs. Another set of columns identifies the revenues that are specifically related to these activities. The difference between the expenses and the revenues related to specific program activities represents the net cost or revenue of the program. This determines the amount, if any, drawn from general revenues by each program activity.

The District's government-wide financial statements are presented on pages 20 and 21 of this report.

Fund Financial Statements

Unlike government-wide financial statements, the focus of fund financial statements is directed to specific activities of the District rather than the District as a whole.

Governmental Fund

The fund financial statements consist of the Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balance. These are prepared on the modified accrual basis of accounting. See Note 1, section (B), which explains

Management's Discussion and Analysis

the modified accrual basis of accounting. In contrast, the government-wide financial statements are prepared on the full accrual basis of accounting.

The District's Balance Sheet is presented on page 22 and Statement of Revenues, Expenditures, and Changes in Fund Balance is presented on page 24 of this report.

The focus of the fund financial statements is narrower than that of the government-wide financial statements. Since different accounting bases are used to prepare the above statements, a reconciliation is required to facilitate the comparison between the fund financial statements and the government-wide financial statements. The reconciliation of the total fund balance and total net position reported in these two statements can be found on page 23 of this report.

The reconciliation of the total changes in fund balance for the governmental fund to the change in net position can be found on page 25 of this report.

Notes to the Basic Financial Statements

The Notes to the Basic Financial Statements provide additional information that is essential to the full understanding of the data provided in the government-wide and fund financial statements. The notes can be found on pages 26 to 49 of this report.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the budgetary comparison schedule and budgetary reconciliation. The Schedule of General Fund Budgeted and Actual Expenditures can be found on page 53 of this report with the Notes to the Schedule on page 54. The Schedule of the District's Proportionate Share of the Net Pension Liability and the Schedule of the District's Contributions can be found on page 55.

C. Government-wide Financial Analysis

Our analysis focuses on the net position and the changes in net position of the District's governmental activities.

Management's Discussion and Analysis

The following schedule is a condensed Statement of Net Position as of the year ended June 30, 2016, as compared to the prior fiscal year.

Statement of Net Position (In Thousands)

	Fiscal Year 2015-16	Fiscal Year 2014-15	Increase (Decrease)	Percent Change
Current and other assets	\$ 154,223	\$ 150,857	\$ 3,366	2.2%
Capital assets	9,568	9,259	309	3.3%
Total assets	163,791	160,116	3,675	2.3%
 Total deferred outflows of resources	 15,436	 14,310	 1,126	 7.9%
 Current liabilities	 3,446	 2,133	 1,313	 61.6%
Noncurrent liabilities	78,094	71,051	7,043	9.9%
Total liabilities	81,540	73,184	8,356	11.4%
 Total deferred inflows of resources	 3,806	 8,893	 (5,087)	 -57.2%
 Net position:				
Net investment in capital assets	9,568	9,259	309	3.3%
Restricted for special projects/programs	105,725	104,379	1,346	1.3%
Unrestricted	(21,412)	(21,289)	(123)	0.6%
Total net position	<u>\$ 93,881</u>	<u>\$ 92,349</u>	<u>\$ 1,532</u>	<u>1.7%</u>

The District's total net position increased \$1,531,523 from the prior fiscal year. This was primarily due to increased permitting revenue as a result of new permitted facilities, a fee adjustment, as well as new burning restriction rules going into effect to further reduce winter-time emissions.

The District's total liabilities increased \$8,356,319 from the prior year; of this, current liabilities increased \$1,312,567 and noncurrent liabilities increased \$7,043,752. The increase in current liabilities can be attributed to an accrued payable related to prior year retirement contributions and capital assets that were received just before year-end. The majority of the increase in noncurrent liabilities is due to an increase in net pension liability.

Management's Discussion and Analysis

Of the District's total net position, the majority is legally or contractually restricted to expenditures for incentives and grants. This amount is offset by a negative unrestricted net position, which is due to the District's net pension liability. Additionally, \$9.6 million is net position in the form of capital assets (e.g., land, buildings, equipment, and vehicles). Consequently, these assets are not available for future spending.

The following is a condensed schedule of Changes in Net Position for the fiscal year ended June 30, 2016, as compared to the prior year.

Changes in Net Position				
(In Thousands)				
	<u>Fiscal Year</u>	<u>Fiscal Year</u>	<u>Increase</u>	<u>Percent</u>
	<u>2015-16</u>	<u>2014-15</u>	<u>(Decrease)</u>	<u>Change</u>
Revenues:				
Program revenues:				
Fees and charges - stationary sources	\$ 24,936	\$ 23,589	\$ 1,347	5.7%
Fees and charges - mobile sources	13,084	12,587	497	3.9%
Operating grants	2,168	2,199	(31)	-1.4%
Restricted special revenue sources	64,488	75,338	(10,850)	-14.4%
General revenues:				
State subvention - not restricted	916	916	-	0.0%
Interest - not restricted	1,334	1,237	97	7.8%
Penalties/settlements	3,672	3,022	650	21.5%
Gain on disposal of capital assets	70	-	70	-
Miscellaneous revenue	126	142	(16)	-11.3%
Total revenues	<u>110,794</u>	<u>119,030</u>	<u>(8,236)</u>	<u>-6.9%</u>
Expenses:				
Permitting	12,906	12,781	125	1.0%
Enforcement/agricultural burning	14,532	13,938	594	4.3%
Plan and rule development	1,148	1,272	(124)	-9.7%
Mobile sources	4,885	4,639	246	5.3%
Outreach and communications	2,502	2,515	(13)	-0.5%
Air quality analysis/air monitoring	4,246	3,521	725	20.6%
Restricted for grants and other uses	69,043	93,561	(24,518)	-26.2%
Total expenses	<u>109,262</u>	<u>132,227</u>	<u>(22,965)</u>	<u>-17.4%</u>
Increase (decrease) in net position	1,532	(13,197)	14,729	-111.6%
Net position - beginning	92,349	168,521	(76,172)	-45.2%
Adjustment to Net Position	-	(62,975)	62,975	-100.0%
Restated net position - beginning	<u>92,349</u>	<u>105,546</u>	<u>(13,197)</u>	<u>-12.5%</u>
Net position - ending	<u>\$ 93,881</u>	<u>\$ 92,349</u>	<u>\$ 1,532</u>	<u>1.7%</u>

Management's Discussion and Analysis

Governmental Activities

The objective of the Statement of Activities is to report the full cost of providing government services for the year. The format also permits the reader to ascertain the extent to which each function is either self-financing or draws from the general revenues of the District.

The Statement of Activities presents information showing how the District's net position changed during the year. All changes in net position are reported as soon as the underlying event occurs regardless of the timing of the cash flows.

Fees, grants, state subvention, penalties, and settlements predominantly support the governmental functions of the District. The primary governmental activities of the District include the following: Permit Services, Enforcement/Air Monitoring/Agricultural Burning, Plan and Rule Development, Mobile Source, Outreach and Communications, Air Quality Analysis, and Grants and Other Special Uses. The following is a schedule of Revenues by Major Source for the fiscal year ended June 30, 2016, as compared to the prior year.

**Revenues by Major Source
Governmental Activities
(In Thousands)**

	Fiscal Year 2015-16	Fiscal Year 2014-15	Increase (Decrease)
Stationary Sources	\$ 24,936	\$ 23,590	\$ 1,346
Mobile Sources	13,084	12,587	497
Operating Grants	2,168	2,199	(31)
General Revenues *	6,118	5,316	802
Restricted Special Revenue Sources	64,488	75,338	(10,850)
	\$ 110,794	\$ 119,030	\$ (8,236)

* Includes State Subvention, Interest, Penalties and Settlements, and other Miscellaneous Revenues that are not restricted to specific programs.

Following are explanations of the significant revenue variances from the prior fiscal year:

Stationary Source Revenue

- Stationary Source Revenue increased \$1,346,271 compared to the prior fiscal year. The majority of this increase was due to increased permitting revenue as a result of new permitted facilities, a fee adjustment, as well as new burning restriction rules going into effect to further reduce winter-time emissions.

Management's Discussion and Analysis

Mobile Source Revenue

- Mobile Source Revenue shows an increase of \$496,817 compared to the prior fiscal year. This was due to an increase in Assembly Bill (AB) 2766 revenue and administrative revenues.

Operating Grant Revenue

- Operating Grant Revenue is lower this year by \$30,648 as compared to the prior fiscal year due to a decrease in U.S. Environmental Protection Agency (EPA) 103 revenue received in the previous year.

	Fiscal Year 2015-16	Fiscal Year 2014-15	Increase (Decrease)
Grant Revenue			
EPA 105 Grant	\$ 1,912,330	\$ 1,894,254	\$ 18,076
EPA 103 Grant	255,773	304,497	(48,724)
Total Grant Revenue	<u>\$ 2,168,103</u>	<u>\$ 2,198,751</u>	<u>\$ (30,648)</u>

General Revenues

- General Revenues increased \$801,994 as compared to the prior fiscal year due to increased revenue from settlement fees and a newly imposed Ag Burn Abatement Penalty.

Restricted Special Revenue Sources

- Restricted Special Revenue decreased \$10,850,301 compared to the prior fiscal year. The table below details the major changes to the various incentive programs that make up this decrease. Changes are due to the availability of and/or timing of the receipt of grant and other funding sources.

	Fiscal Year 2015-16	Fiscal Year 2014-15	Increase (Decrease)
Incentive Program			
DMV Surcharge Fees	\$ 45,640,380	\$ 44,186,256	\$ 1,454,124
Carl Moyer Program	294,471	9,271,017	(8,976,546)
Proposition 1B	59,651	11,540,679	(11,481,028)
Lower Emission School Bus Program	-	-	-
Federal Diesel Earmark Grant	-	379,030	(379,030)
State Cap and Trade and Air Quality Improvement Program	3,428,138	1,531,700	1,896,438
Diesel Emission Reduction Act	1,382,799	2,262,437	(879,638)
Voluntary Emission Reduction	8,612,007	1,311,901	7,300,106
Agriculture Tractor Replacement Program	225,017	-	225,017
Indirect Source Mitigation Fees	2,024,165	2,460,708	(436,543)
Other Miscellaneous Incentives	2,821,126	2,394,327	426,799
Total	<u>\$ 64,487,754</u>	<u>\$ 75,338,055</u>	<u>\$ (10,850,301)</u>

Management's Discussion and Analysis

Total District Expenses decreased by \$22,964,332. The majority of this decrease was due to reduced grant related expenses in the Proposition 1B and Carl Moyer Programs which returned to normal after higher than normal revenue funds available and spent in the prior year. The following is a schedule of District expenses by activity for the fiscal year ending June 30, 2016 with a comparison of prior year expenses.

Expenses by Activities			
Governmental Activities			
	Fiscal Year	Fiscal Year	Increase
	2015-16	2014-15	(Decrease)
Permitting	\$ 12,906,182	\$ 12,781,456	\$ 124,726
Enforcement/Agricultural Burning	14,532,516	13,938,265	594,251
Plan and Rule Development	1,147,917	1,271,597	(123,680)
Mobile Source	4,885,046	4,639,424	245,622
Outreach & Communications	2,502,259	2,514,672	(12,413)
Air Quality Analysis/Air Monitoring	4,245,554	3,520,539	725,015
Total Operating Expenses	40,219,474	38,665,953	1,553,521
Restricted for Grants and Special Uses	69,043,003	93,560,856	(24,517,853)
Total District Expenses	\$ 109,262,477	\$ 132,226,809	\$ (22,964,332)

D. Financial Analysis of the District's General Fund

General Fund

As of the end of the fiscal year, the District's General Fund reported an ending fund balance of \$151,021,671, an increase of \$2,069,457 in comparison with the prior year. Of the ending fund balance, 70% or \$105,725,405 is restricted for grants and incentives. The long-term contractual commitments related to these restricted programs involve multiple-year expenditures. The ending fund balance also includes 0.7% or \$988,259 not in spendable form for items that are not expected to be converted to cash, such as prepaid expenses, and 20.6% or \$31,137,967 assigned to be used for Community Incentive programs, encumbrances and other assignments of Fund Balance listed in Note 1.K on page 31 of this report.

At the end of the fiscal year, the District's Unassigned Fund Balance was \$13,170,040, an increase of \$2,892,845 compared with the prior year. The majority of this increase was related to an increase in license and permit fees and penalties and settlements revenue.

Management's Discussion and Analysis

Operating Revenues

- Total Operating Revenues increased \$2,701,101, which was mainly due to increases in license and permit fees and penalties and settlements revenue.

Operating Expenditures

Total Operating Expenditures increased \$810,250 as compared to the prior fiscal year.

- Total salaries and benefits increased \$1,203,992 compared to the prior fiscal year. The major factors in this increase, offset by salary savings, were due to a scheduled salary increase per the employees' Memorandum of Understanding.
- Total services and supplies decreased \$96,924 from the prior fiscal year. This decrease was due to reduced expenditures in the professional and specialized services account due to a number of contracts for major projects being completed and expensed in the previous fiscal year and not this year.
- Total capital outlay decreased \$296,817 as compared to the prior fiscal year. This was primarily the result of a number of significant projects being completed the prior fiscal year and spending in this category returning to normal levels. The table below details the major changes to the various capital asset accounts that make up this decrease.

Account Title	Fiscal Year 2015-16	Fiscal Year 2014-15	Increase (Decrease)
Computer Equipment	\$ 588,350	\$ 794,118	\$ (205,768)
Telephone System	4,647	7,717	(3,070)
Automobiles	246,511	146,287	100,224
Office Improvements	129,224	19,542	109,682
Video Conferencing System	74,538	335,979	(261,441)
Air Monitoring Station Automation Project	92,615	214,885	(122,270)
Air Monitoring Station Equipment	331,341	267,913	63,428
Monitoring Near Roadways	203,645	181,247	22,398
Total	<u>\$ 1,670,871</u>	<u>\$ 1,967,688</u>	<u>\$ (296,817)</u>

Management's Discussion and Analysis

Non-Operating Revenues

- Non-Operating Revenues decreased \$10,850,301 mainly due to a decrease in the amount of state and federal grant funds received, particularly Proposition 1B and Carl Moyer Program.

Non-Operating Expenditures

- Non-Operating Incentive Program expenditures decreased \$24,517,853 compared to the prior fiscal year. This was primarily due to a decreased level of Carl Moyer Program and Prop 1B funds spent in fiscal year (FY) 15-16 as compared to the previous year. The table below details the major changes to the various Incentive Programs that make up this increase.

Incentive Program Name	Fiscal Year 2015-16	Fiscal Year 2014-15	Increase (Decrease)
DMV Heavy-Duty Program	\$ 39,826,106	\$ 39,585,372	\$ 240,734
Carl Moyer Program	5,992,831	13,023,785	(7,030,954)
School Bus Retro/Replace Program	653,352	965,971	(312,619)
Federal EPA Incentive Program	621,800	-	621,800
State Cap and Trade and AQIP	1,052,086	-	1,052,086
Voluntary Emission Reduction Agreements	1,395,589	807,889	587,700
Indirect Source Review Rule Mitigation Program	1,258,176	3,733,409	(2,475,233)
Federal Diesel Earmark Grant	-	379,030	(379,030)
Proposition 1B Program	11,526,453	24,096,076	(12,569,623)
School Bus Program	-	2,240	(2,240)
Diesel Emission Reduction Act	1,381,609	2,262,679	(881,070)
Community Incentive Programs	5,080,869	8,236,489	(3,155,620)
Air Toxics	17,171	17,346	(175)
Misc. Incentive Grants	57,676	343,849	(286,173)
Hearing Board Incentive Grant	179,285	106,721	72,564
Total	<u>\$ 69,043,003</u>	<u>\$ 93,560,856</u>	<u>\$ (24,517,853)</u>

E. Capital Assets

The District's capital assets are used for governmental activities. The book value was \$8,663,732 (net of accumulated depreciation of \$11,869,847) as of June 30, 2016. Capital assets include land, buildings and improvements, equipment for air monitoring stations, computer and office equipment, video conferencing equipment, and District vehicles.

Additional information on capital assets can be found in the "Notes to the Basic Financial Statements" on page 39 of this report.

Management's Discussion and Analysis

F. Deferred Outflows of Resources and Deferred Inflows of Resources

Deferred Outflows of Resources

Deferred outflows of resources, although similar to assets, are set apart because these items do not meet the technical definition of being a District asset on the date of these financial statements. In other words, these amounts are not available to pay liabilities in the way assets are available. When all the recognition criteria are met, the deferred outflows of resources will become expenses/expenditures.

The most significant deferred outflows of resources reported are related to the implementation of Governmental Accounting Standards Board (GASB) Statement No. 68 and GASB Statement No. 71 for pension liability reporting. GASB Statement No. 71 requires that contributions made during the fiscal year to the retirement system be reported as deferred outflows of resources. Consequently, the majority of the deferred outflows of resources reported are comprised of current year contributions to the retirement system. However, there may be some deferred outflows of resources attributable to the various components that impact pension changes, and can include investment changes, amortization, changes due to actuarial assumptions, and differences between expected or actual experience.

Deferred Inflows of Resources

Deferred inflows of resources are the counterpart to deferred outflows of resources on the Statement of Net Position. Deferred inflows of resources are not technically liabilities of the District as of the date of the financial statements. When all the recognition criteria are met, the deferred inflows of resources will become revenue or increases to net position. The only types of deferred inflows of resources being reported on the District's Statement of Net Position are those related to pensions.

Deferred inflows of resources related to pensions represent a net amount attributable to the various components that impact pension changes, and can include investment changes, amortization, changes due to actuarial assumptions, and differences between expected or actual experience.

G. Current Year's Long-Term Debt

At the end of the current fiscal year, the District had total long-term debt outstanding of \$3,352,695. This amount is comprised solely of compensated absences, including the current portion due of \$244,249. Additional information on the District's compensated absences can be found in Note 4 under the Notes to the Basic Financial Statements section of this report.

Management's Discussion and Analysis

H. Current Year's Budget

The District Budget is divided into two sections. The Operating Budget represents those expenditures that directly support the everyday operations of the District, including administration of incentive programs. The Non-Operating Budget represents those expenditures for the emission reduction incentive programs administered by the District. In addition to funding provided by the District, various federal and state agencies provide funding for these programs in the form of grants or agreements. Listed below are the major factors that explain the change from the Adopted Budget to the final Adjusted Budget at year-end.

The original Operating Budget adopted in June 2015 was \$46,158,128. The Final Adjusted Budget was \$46,322,476. Under District budget policy, all prior unused appropriations lapse at year-end and are re-budgeted. Revenues unrealized as of the fiscal year 2015-16 year-end are re-budgeted in 2016-17. Revenues already received, but unspent, are included in the 2016-17 budget as available Fund Balance.

The Adjusted Non-Operating Budget at June 30, 2016 was \$244,533,678, including \$850,000 appropriated for contingencies. This was an increase of \$106,953,917 over the originally adopted Non-Operating Budget. This increase was due to fewer than expected expenditures occurring in fiscal year 2014-15, which increased that year's ending fund balance. That fund balance was a revenue source for fiscal year 2015-16, supporting the same expenditures as the previous year. Listed below are the major budget additions made during the year:

- The mid-year non-operating budget true-up of \$70,769,507, including increases to DMV Surcharge Fees, Carl Moyer Program, Prop 1B, Federal Diesel Emission Reduction Act (DERA), and Cap and Trade and Air Quality Improvement Program (AQIP) funds.
- \$950,000 for Environmental Protection Agency Diesel Emission Reduction Act Tractor Replacement Program.
- \$4,594,674 for Environmental Protection Agency Air Shed Tractor Replacement and Wood Stove Replacement Programs.
- \$6,080,000 for the Enhanced Fleet Modernization and Plus Up Programs.
- \$24,109,736 for State Cap and Trade and Air Quality Improvement Programs.

Operating Budget

Revenues

Actual Operating Revenues at June 30, 2016 were \$46,380,067, as compared to the final Adjusted Budget of \$49,090,399, a negative variance of \$2,710,332. Revenues were lower than expected in fiscal year 2015-16 due to a decrease in administrative fees, and license and permit fees received.

Management's Discussion and Analysis

Expenditures

Actual Operating Expenditures at June 30, 2016 were \$39,990,561 as compared to the final Adjusted Budget of \$46,322,476, a positive variance of \$6,331,915.

Salaries and Benefits

Actual salary and benefit expenditures at year-end were \$33,570,709 as compared to the final Adjusted Budget of \$37,580,672, a positive variance of \$4,009,963. Salary and benefit savings on vacant positions during the year were the major factor contributing to the positive variance.

Services and Supplies

Actual services and supplies expenditures at year-end were \$4,741,927 as compared to the final Adjusted Budget of \$6,080,204 a positive variance of \$1,338,277. Of the total expenditure amount, \$763,141 was encumbered at year-end. Listed in the table below are the expenditures that make up the variances in the services and supplies accounts.

	Final Adjusted Budget	Actual Expenditures June 30, 2016	Variance With Final Budget Positive (Negative)
Mobile Communications	\$ 248,302	\$ 181,228	\$ 67,074
Equipment Maintenance	1,203,603	901,663	301,940
Professional and Specialized Services	4,486,979	3,566,774	920,205
Publications and Legal Notices	141,320	92,262	49,058
Total	<u>\$ 6,080,204</u>	<u>\$ 4,741,927</u>	<u>\$ 1,338,277</u>

Capital Assets

Actual Capital Outlay expenditures at year-end were \$1,677,925 as compared to the final Adjusted Budget of \$2,661,600, a positive variance of \$983,675. Several planned purchases were delayed until fiscal year 2016-17, contributing to this variance. Listed in the table below are the expenditures that make up the variances in the Capital Assets accounts.

	Final Adjusted Budget	Actual Expenditures June 30, 2016	Variance With Final Budget Positive (Negative)
Office Improvements	\$ 165,000	\$ 15,800	\$ 149,200
Computer Equipment	1,061,252	719,047	342,205
Automobiles	243,000	239,970	3,030
Office Machines and Equipment	70,000	22,324	47,676
Telephone System	20,450	3,734	16,716
Video Conferencing System	25,500	2,505	22,995
Air Monitoring/Detection Equipment	545,398	464,089	81,309
Air Monitoring Station Automation Project	35,000	62,075	(27,075)
Monitoring Near Roadways	496,000	148,381	347,619
Total	<u>\$ 2,661,600</u>	<u>\$ 1,677,925</u>	<u>\$ 983,675</u>

Management's Discussion and Analysis

Non-Operating Budget

Revenues

Actual Non-Operating Revenues at June 30, 2016 were \$67,126,370 as compared to the final Adjusted Budget of \$149,790,316, a negative variance of \$82,663,946. Listed in the table below are the revenues that make up the major variances in Non-Operating Revenues.

	Final Adjusted Budget	Actual Revenues June 30, 2016	Variance With Final Budget Positive (Negative)
Air Toxics	\$ 25,000	\$ 17,171	\$ (7,829)
DMV Surcharge Fees	44,960,000	45,520,968	560,968
Carl Moyer Program	8,300,000	180,000	(8,120,000)
Proposition 1B	46,000,000	-	(46,000,000)
School Bus Programs	2,400,000	1,827,822	(572,178)
DERA Program Funds	2,393,883	1,129,993	(1,263,890)
Federal and Heavy Duty Grants	5,996,205	621,800	(5,374,405)
CEC - Energy Efficiency Block Grant	300,000	-	(300,000)
VERA/ISR Rule Mitigation Funds	5,179,542	10,607,076	5,427,534
State Cap and Trade and AQIP Funding	29,999,736	3,612,250	(26,387,486)
Non-operating Interest	1,015,950	399,474	(616,476)
Other Miscellaneous Incentives	3,220,000	3,209,816	(10,184)
Total	<u>\$ 149,790,316</u>	<u>\$ 67,126,370</u>	<u>\$ (82,663,946)</u>

The \$46,000,000 negative variance for Proposition 1B funds is due to the delay in receipt of this revenue because of the unavailability of funds from the State. These funds are anticipated to be available during the 2016-17 fiscal year.

Expenditures

Actual Non-Operating Expenditures at June 30, 2016 were \$69,043,178 as compared to the final Adjusted Budget of \$243,683,678, a positive variance of \$174,640,500. Listed in the following table on the next page are the expenditures that make up the variances in Non-Operating Expenditures.

Management's Discussion and Analysis

	Final Adjusted <u>Budget</u>	Actual Expenditures <u>June 30, 2016</u>	Variance With Final Budget Positive <u>(Negative)</u>
Air Toxics-Pass Through	\$ 25,000	\$ 17,346	\$ 7,654
Federal and Heavy Duty Grants	8,064,474	1,751,793	6,312,681
Carl Moyer Program	12,635,392	5,992,831	6,642,561
DMV Surcharge Fees	101,064,930	39,776,106	61,288,824
VERA/ISR Rule Mitigation Program	8,653,332	2,653,765	5,999,567
Proposition 1B Program	61,855,647	11,576,453	50,279,194
School Bus Programs	4,907,415	904,968	4,002,447
Greenhouse Gas Support for Cities and Counties	250,000	-	250,000
Drought Relief Program	500,000	-	500,000
Community Incentive Programs	12,705,556	5,080,869	7,624,687
State Cap and Trade and AQIP Funding	32,349,736	1,052,086	31,297,650
CEC - Energy Efficiency Block Grant	347,300	38,996	308,304
Miscellaneous Incentive Programs	324,896	197,965	126,931
Total	<u>\$ 243,683,678</u>	<u>\$ 69,043,178</u>	<u>\$ 174,640,500</u>

The District has a policy of not entering into incentive agreements for non-federal grant contracts until grant funds are received by the District. This occasionally results in delayed expenditures. A significant amount of grant funds that were received and appropriated in fiscal year 2015-16 (Carl Moyer Program, Proposition 1B Program, School Bus Program, and Community Incentive Programs) will not be expended on incentive contracts until fiscal year 2016-17 or later. Federal incentive grant contracts are reimbursable grants whereby the District must expend the incentive grant funds prior to receiving reimbursement from the Federal government.

I. Next Year's Budget

The Adopted Budget for fiscal year 2016-17 is \$198,036,968 as compared to the Adjusted Budget for fiscal year 2015-16 of \$266,296,418, a decrease of \$68,259,450. In June 2011, the District Governing Board adopted a change in the District's non-operating budgeting approach which combined the Prior Year and Current Year Budgets used previously, into a single ongoing budget for the current and future years. Since, the adopted budget is based on estimated revenues, expenditures, and encumbrances occurring, and due to the length of the budget development process, every year after the financial closing; the budget is adjusted to reflect the actual available fund balance based on the year-end closing actuals. The 2016-17 adopted budget will be also adjusted to include year-end encumbrances and reflect actual year-end reserves.

Management's Discussion and Analysis

J. Economic Factors

It is important to note that the District is relatively self-sufficient with no significant dependence on the state or federal funding for its operating expenditures. In addition, ongoing, long-term forecasts project stable fiscal health for the District. While the District does face a full agenda of challenges, the Governing Board generally has sufficient resources available to meet them.

K. Requests for Information

This financial report is designed to provide a general overview of the District's finances for readers of the financial statements. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Administrative Services, 1990 East Gettysburg Avenue, Fresno, California 93726-0244.

San Joaquin Valley Unified Air Pollution Control District
Reconciliation of the Statement of Revenues, Expenditures, and Changes in
Fund Balance of the Governmental Fund to the Statement of Activities
For the Year Ended June 30, 2016

Amounts reported for governmental activities in the statement of activities are different because:

Net Change in Fund Balance - governmental fund		\$ 2,069,457
The governmental fund reports capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount of the capital outlays recorded in the current period.		1,611,766
Depreciation expense on capital assets is reported in the statement of activities but does not require the use of current financial resources. Therefore, depreciation expense is not reported as an expenditure in the governmental fund.		(1,209,607)
The net effect of disposal of assets.		(93,470)
Certain pension expenses in the statement of activities are recognized on the accrual basis of accounting in accordance with GASB Statement No. 68.		
Amount of pension expenditures at fund modified accrual level	8,569,623	
Amount of pension expenses recognized at government-wide level	<u>(9,129,618)</u>	(559,995)
Increase in compensated absences due in more than one year		<u>(286,628)</u>
Change in net position of governmental activities		<u><u>\$ 1,531,523</u></u>

The notes to the financial statements are an integral part of this statement.

**SAN JOAQUIN VALLEY UNIFIED
AIR POLLUTION CONTROL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
June 30, 2016**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Reporting Entity

The San Joaquin Valley Unified Air Pollution Control District (District) is a special district operating under the provisions of Sections 40150 through 40162 of the California Health and Safety Code. The District exists to develop and implement programs on a local level to meet the requirements of state and federal air pollution control laws in the San Joaquin Valley. The San Joaquin Valley Air Basin (SJVAB) comprises eight counties (San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, Tulare, and the Valley portion of Kern), and covers about 25,000 square miles. The District is governed by a fifteen member Governing Board that consists of one representative from the board of supervisors of all eight counties, five council members from Valley cities and two governor-appointed public members. The District operates a network of air monitoring stations, analyzes air quality data and establishes maximum emission levels for stationary, commercial, and industrial facilities that are enforced through the District's permit system.

B. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period.

The District considers accrued revenue to be available if it is collected within 90 days of the end of the current period. Expenditures generally are recorded when a liability is incurred, as under the accrual basis of accounting. However, debt service expenditures, as well as expenditures related to compensated absences

NOTES TO THE BASIC FINANCIAL STATEMENTS

and claims and judgments, are recorded only when payment is due. State and federal grants, vehicle registration fees, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current period. All other revenue items are considered to be measurable and available only when the District receives cash.

Government-wide Financial Statements

The District government-wide financial statements include a Statement of Net Position and Statement of Activities. These statements present summaries of governmental activities for the District as a whole.

These statements are presented on an economic resources measurement focus and the accrual basis of accounting. Accordingly, all of the District's assets, deferred outflows of resources, liabilities, including capital assets and long-term liabilities and deferred inflows of resources are included in the accompanying Statement of Net Position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred, regardless of the timing of related cash flows.

The Statement of Activities demonstrates the degree to which the direct expenses of a given functional activity are offset by program revenues directly connected with the functional activity. Direct expenses are those that are clearly identifiable with a specific functional activity.

The District's functional activities are broken down into the following categories:

- Permitting
- Enforcement / Agricultural Burning
- Plan and Rule Development
- Mobile Sources
- Outreach and Communications
- Air Quality Analysis / Air Monitoring

The types of transactions reported as program revenues are reported in three categories: 1) Fees and Charges, including stationary source fees from permitted facilities and mobile source fees derived from motor vehicle registrations, 2) Operating Grants that are in support of air pollution program activities, and 3) Restricted Special Revenue Sources. Program revenues are netted with program expenses to present the net cost of each functional activity. Interest income and other miscellaneous revenue that cannot be identified with a program are reported as General Revenues.

NOTES TO THE BASIC FINANCIAL STATEMENTS

Amounts paid to acquire capital assets are capitalized as assets in the government-wide financial statements rather than reporting them as expenditures.

Governmental Fund Financial Statements

Governmental fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures, and Changes in Fund Balance.

Reconciliation of the fund financial statements to the government-wide financial statements is provided to explain the differences as a result of the integrated approach of the Governmental Accounting Standards Board (GASB) Statement No. 34 reporting.

All governmental funds are accounted for on a spending or current financial resources measurement focus and the modified accrual basis of accounting. Using the current financial resources measurement focus means that only current assets and current liabilities are generally included in the Balance Sheet. The Statement of Revenues, Expenditures, and Changes in Fund Balance presents increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets.

Amounts expended to acquire capital assets are recorded as expenditures in the year that resources were expended rather than recording them as fund assets.

C. Fund Types

General Fund

The primary operating fund of the District is used to record transactions relating to its general business operations.

D. Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods and services. Encumbrance accounting is employed in the General Fund. Purchase orders, contracts, and other commitments for the expenditure of funds are recorded in order to reserve a portion of the applicable appropriation. Unencumbered appropriations lapse at year-end and encumbrances outstanding at that time are recorded as assignment of fund balance for expenditure in a subsequent year. These outstanding encumbrances do not constitute expenditures or liabilities until performance has occurred on the part of the vendors with whom the District has entered into an agreement.

NOTES TO THE BASIC FINANCIAL STATEMENTS

E. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and governmental fund financial statements. The cost is recorded as an expense as prepaid items are consumed.

Prepaid Expenses of the District for the year ended June 30, 2016 consisted of the following:

Loans Receivable	\$	65,363
Prepaid Retirement		5,112
Prepaid Payroll		809,026
Prepaid Medical Insurance		108,758
Total Prepaid Expenses	\$	<u>988,259</u>

F. Capital Assets and Depreciation

Land, equipment, buildings and improvements are valued at cost unless obtained by donation, in which case the assets are recorded at the appraised value at the date of receipt. Capital asset purchases with values of at least \$2,000 and with an expected useful life greater than one year are capitalized. The District implemented GASB Statement No. 51 and started capitalizing intangible software that was developed internally and met the threshold of \$100,000 for intangible asset capitalization.

Repair and maintenance costs are charged to current expenditures as incurred. Equipment disposed of or no longer required for its existing use is removed from the records at actual or estimated cost.

Depreciation is charged as an expense against operations, and accumulated depreciation is reported on the Statement of Net Position. Property, plant, and equipment of the District are depreciated using the straight-line method over the following useful lives:

Buildings and Improvements	20-40 Years
Air Monitoring and Detection Equipment	5-10 Years
Office Furniture and Other Misc. Equipment	5-10 Years
Telephone Equipment	10 Years
Computer Equipment and Software	5 Years
Automobiles	5 Years

G. Compensated Absences

Regular employees accumulate annual leave. Certain restrictions apply with respect to the accumulation of annual leave and its payment at termination.

NOTES TO THE BASIC FINANCIAL STATEMENTS

The current and noncurrent portions of compensated absences amounted to \$244,249 and \$3,108,446, respectively, and have been reflected in the Statement of Net Position.

H. Pensions

In government-wide financial statements, retirement plans (pensions) are required to be recognized and disclosed using the accrual basis of accounting (see Note 5 and the required supplementary information (RSI) section immediately following the Notes to Financial Statements), regardless of the amount recognized as pension expenditures on the governmental fund statements, which use the modified accrual basis of accounting.

In general, the District recognizes a net pension liability, which represents the District's proportionate share of the excess of the total pension liability over the fiduciary net position of the pension reflected in the actuarial report provided by the Kern County Employees' Retirement Association (KCERA). The net pension liability is measured as of the District's prior fiscal year-end. Changes in the net pension liability are recorded, in the period incurred, as pension expense or as deferred inflows of resources or deferred outflows of resources depending on the nature of the change. The changes in net pension liability that are recorded as deferred inflows of resources or deferred outflows of resources (that arise from changes in actuarial assumptions or other inputs and differences between expected or actual experience) are amortized over the weighted average remaining service life of all participants in the respective pension plan and are recorded as a component of pension expense beginning with the period in which they are incurred.

For purposes of measuring the net pension liability and deferred outflows/inflows of resources relating to pensions and pension expense, information about the fiduciary net position of the District's pension plan with KCERA and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by KCERA. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefits terms. Investments are reported at fair value.

Projected earnings on pension investments are recognized as a component of pension expense. Differences between projected and actual investment earnings are reported as deferred inflows of resources or deferred outflows of resources and amortized as a component of pension expense on a closed basis over a five-year period beginning with the period in which the difference occurred. Each subsequent year will incorporate an additional closed basis five-year period of recognition.

NOTES TO THE BASIC FINANCIAL STATEMENTS

I. Self-Insurance

The District is self-insured on comprehensive/collision coverage on all District automobiles. The Special District Risk Management Authority provides coverage for comprehensive general and auto liability, workers' compensation liability, public officials liability, public employees blanket bond, and the replacement cost of property. (See Note 6.)

J. Restrictions on Net Position

Total Restricted Net Position at year-end was \$106,025,405. Restricted Net Position is net position that is subject to restrictions beyond the District's control. The programs listed below are subject to restrictions imposed by the grantors of each program. The amounts for each program are as follows:

Federal and Heavy Duty Grants	\$	186,328
School Bus Programs		3,462,497
DMV Surcharge Fees		73,499,893
State Cap and Trade and AQIP Funds		4,954,710
Carl Moyer Funds		6,970,997
Proposition 1B Program		3,861,645
Community and Other Misc. Grants		705,289
VERA/ISR Mitigation Programs		12,084,046
Total Restricted Net Position	\$	<u>105,725,405</u>

As these restrictions are also restrictions of fund balance, a description and the purpose of each program can be found in Note 1.K.

K. Fund Balance

Beginning with fiscal year 2011, the District implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions." This statement provides more clearly defined fund balance categories to make the nature and extent of the constraint placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints:

- Nonspendable fund balance—amounts that are not in spendable form (such as inventory or prepaid expenses) or are required to be maintained intact.

NOTES TO THE BASIC FINANCIAL STATEMENTS

- Restricted fund balance—amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provision, or by enabling legislation.
- Committed fund balance—amounts constrained to a specific purpose by the District itself, using its highest level of decision-making authority (i.e., District Governing Board). To be reported as committed, amounts cannot be used for any other purpose unless the District takes the same level of action to remove or change the constraint.
- Assigned fund balance—amounts the District intends to use for a specific purpose. Intent can be expressed by the District Governing Board (the Board) or by an official or body to which the Board delegates the authority.
- Unassigned fund balance—amounts that are available for any purpose. Only the General fund reports positive amounts.

The District Governing Board establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund. Assigned fund balance is established by the Governing Board through adoption or amendment of the budget as intended for specific purpose.

When an expenditure is incurred for a purpose for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balance is available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

NOTES TO THE BASIC FINANCIAL STATEMENTS

The amounts of various fund balance categories required by GASB Statement No. 54 are as follows:

Nonspendable Fund Balance	\$ 988,259
Restricted Fund Balance:	
Federal and Heavy Duty Grants	186,328
School Bus Programs	3,462,497
DMV Surcharge Fees	73,499,893
State Cap and Trade and AQIP Funds	4,954,710
Carl Moyer Funds	6,970,997
Proposition 1B Program	3,861,645
Community and Other Misc Grants	705,289
VERA/ISR Mitigation Programs	12,084,046
Total Restricted Fund Balance	105,725,405
Assigned Fund Balance:	
Encumbrances	1,809,111
Community Incentive Programs	26,383,313
Long-Term Building Maintenance	523,000
Contingency Reserve	850,000
Video Teleconferencing and Computer Equipment	350,000
Drought Relief Program	300,000
Appropriated FY 2016-17 Budgetary Deficit	922,543
Total Assigned Fund Balance	31,137,967
Unassigned Fund Balance:	
General Reserve	4,600,000
Unassigned	8,570,040
Total Unassigned Fund Balance	13,170,040
Total Fund Balances	\$ 151,021,671

Nonspendable Fund Balance:

- The \$988,259 fund balance is for prepaid medical, payroll, retirement and other expenses and long-term notes receivable to the FLEX spending bank account.

NOTES TO THE BASIC FINANCIAL STATEMENTS

Restricted Fund Balance:

- The \$186,328 fund balance for the Federal and Heavy Duty Grants represents monies identified by the District Governing Board for distribution to qualifying Heavy Duty Programs. The qualifying programs include the DERA - Diesel Emission Reduction Program - which represents funds from the Environmental Protection Agency passed through to the California Air Resources Board and the Federal Diesel Earmark Grant.
- The \$3,462,497 fund balance for the School Bus Programs represents funds received from the California Air Resources Board. The District will use these funds for the District's Heavy-Duty Engine Program for school bus replacement and retrofits.
- The \$73,499,893 fund balance for DMV Surcharge Fees represents monies identified by the District Governing Board for distribution to qualifying agencies or individuals in the District's DMV Heavy Duty Emissions Program and the DMV Mobile Source Incentives Program.
- The \$4,954,710 fund balance for the State Cap and Trade and Air Quality Improvement Program (AQIP) Funds represents monies from the California Air Resources for projects that generate reductions in greenhouse gas emissions with potential co-benefits of criteria pollutant reductions. The District will use these funds for several programs aimed at disadvantaged communities, administered by Valley Clean Air Now.
- The \$6,970,997 fund balance for the Carl Moyer Program represents funds received from the California Air Resources Board. The District will use these funds for Heavy Duty Engine Emission Reduction Program incentives.
- The \$3,861,645 fund balance for the Proposition 1B Program represents funds received from the California Air Resources Board. These funds will be used for the replacement and retrofit of heavy-duty trucks.
- The \$705,289 fund balance for Community and Other Miscellaneous Grants represents fees collected under several District Rules including 4694, Wine Fermentation and Storage Tanks; 3030, Hearing Board Fees; and the EPA Settlement Program. These funds will be used for projects that will mitigate future projected emissions.
- The \$12,084,046 fund balance for the Indirect Source Review (ISR) Rule Mitigation Program and Voluntary Emission Reduction Program represents funds received from new development projects and voluntary development mitigation contracts. These funds will be used as incentive grants for projects that will offset the future projected emissions generated by these development projects.

NOTES TO THE BASIC FINANCIAL STATEMENTS

Assigned Fund Balance:

- The \$1,809,111 fund balance for encumbrances outstanding at June 30, 2016 represents the amount of expenditures that would result if contracts in process at fiscal year-end were completed. Of the total assigned amount, \$763,142 represents encumbrances for services and supplies and \$1,045,969 represents encumbrances for capital assets. This assignment earmarks resources to pay for these contractual obligations by segregating a portion of fund balance.
- The \$26,383,313 was assigned by the District Governing Board for various Community Incentive Programs.
- The \$300,000 was assigned by the District Governing Board for a Drought Relief Program.
- The \$523,000 was established by the District Governing Board to provide for Long-Term Building Maintenance.
- The \$850,000 was established by the District Governing Board to provide for a Contingency Reserve.
- The \$350,000 was established by the District Governing Board to provide for Video Conferencing and Computer Equipment.
- The \$922,543 is the portion of existing fund balance that is included as a budgetary resource in the fiscal year 2016-17 budget.

Unassigned Fund Balance:

- From total Unassigned Fund Balance of \$13,170,040 reported on June 30, 2016, \$4,600,000 is a General Reserve that was established by the District Governing Board to provide for additional financial stability.

L. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

M. New Accounting Pronouncements

The following Governmental Accounting Standards Board (GASB) Statements have been implemented in the current financial statements:

NOTES TO THE BASIC FINANCIAL STATEMENTS

1. Statement No. 72, "Fair Value Measurement and Application." The requirements of this Statement are effective for financial statements for fiscal years beginning after June 15, 2015.
2. Statement No. 73, "Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68." The requirements of this Statement are effective for financial statements for fiscal years beginning after June 15, 2015 - except those provisions that address employers and governmental nonemployer contributing entities for pensions that are not within the scope of Statement No. 68, which are effective for fiscal years beginning after June 15, 2016.
3. Statement No. 76, "The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments." The requirements of this Statement are effective for financial statements for fiscal years beginning after June 15, 2015.
4. Statement No. 79, "Certain External Investment Pools and Pool Participants." The requirements of this Statement are effective for financial statements for fiscal years beginning after June 15, 2015, except for the provisions in paragraphs 18, 19, 23-26 and 40, which are effective for reporting periods beginning after December 15, 2015.

NOTES TO THE BASIC FINANCIAL STATEMENTS

2. CASH AND INVESTMENTS

Cash and investments as of June 30, 2016 consisted of the following:

District Petty Cash/Change Funds	\$	4,900
Postage Funds		17,575
Total Cash On Hand		22,475
Wells Fargo Bank		2,248,649
Other Deposits		364
Total Deposits with Financial Institutions		2,249,013
Security Deposit - Leased Property		2,000
Total Other Deposits		2,000
Fresno County Treasurer		133,718,568
Total Investments with County Investment Pools		133,718,568
Total Cash and Investments	\$	135,992,056

Investments Authorized by the California Government Code and the District's Investment Policy

The table below identifies the investment types that are authorized for the District by the California Government Code (or the District's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the District's investment policy, where more restrictive) that address interest rate risk and credit risk.

<u>Authorized</u> <u>Investment Type</u>	<u>Maximum</u> <u>Maturity</u>	<u>Maximum</u> <u>Percentage</u> <u>Of Portfolio</u>	<u>Maximum</u> <u>Investment</u> <u>In One Issuer</u>
County Investment Pools	N/A	100%	None

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. In other words, the risk that interest rates will rise and

NOTES TO THE BASIC FINANCIAL STATEMENTS

reduce the fair value of an investment. Generally, the longer the maturity of an investment, the greater its sensitivity is to fair value and to changes in market interest rates.

As of June 30, 2016, none of the District's investments are required to disclose interest rate risk.

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of the rating required by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, or the District's investment policy, and the actual rating as of year-end for each type. The column marked "Exempt From Disclosure" identifies those investment types for which GASB Statement No. 40 does not require disclosure as to credit risk:

<u>Investment Type</u>	<u>Amount</u>	Minimum	Exempt	Rating as of Year-End		
		Legal <u>Rating</u>	From <u>Disclosure</u>	<u>AAA</u>	<u>AA</u>	Not <u>Rated</u>
County Investment Pools	<u>\$133,718,568</u>	N/A	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>	<u>\$133,718,568</u>

County Treasurer's Investment Pools

The District is a voluntary participant in the County of Fresno Treasurer's Investment Pool that is regulated by the California Government Code (CGC). The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value for the entire Investment Pool portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the Investment Pool, which are recorded on an amortized cost basis. In accordance with GASB Statement No. 72, investments in the County Treasurer's Investment Pool are not subject to the three-tiered fair value hierarchy: Level 1, Level 2 and Level 3. The three tiers are defined as follows:

- Level 1 – reflect unadjusted quoted prices in active markets for identical assets
- Level 2 – reflect inputs that are based on a similar observable asset either directly or indirectly
- Level 3 – reflect unobservable inputs

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The

NOTES TO THE BASIC FINANCIAL STATEMENTS

CGC and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits: The CGC requires that a financial institution secure deposits made by state or local government units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

As of June 30, 2016, all of the District's deposits with financial institutions were held in fully collateralized accounts, as permitted by the CGC.

3. CAPITAL ASSETS AND DEPRECIATION

Capital assets of the District for the year ended June 30, 2016 consisted of the following:

	Capital Assets - Governmental Activities			
	Balance			Balance
	<u>June 30, 2015</u>	<u>Additions</u>	<u>Deletions</u>	<u>June 30, 2016</u>
Capital assets, non-depreciable:				
Land	\$ 904,208	\$ -	\$ -	\$ 904,208
Total capital assets, non-depreciable	<u>904,208</u>	<u>-</u>	<u>-</u>	<u>904,208</u>
Capital assets, depreciable/amortizable:				
Building and improvements	7,070,265	-	-	7,070,265
Machinery and equipment	11,264,438	1,611,766	733,940	12,142,264
Intangible assets	1,321,050	-	-	1,321,050
Total capital assets, depreciable/amortizable	<u>19,655,753</u>	<u>1,611,766</u>	<u>733,940</u>	<u>20,533,579</u>
Less accumulated depreciation/amortization for:				
Building and improvements	2,419,453	210,794	-	2,630,247
Machinery and equipment	7,803,706	924,313	640,469	8,087,550
Intangible assets	1,077,550	74,500	-	1,152,050
Total accumulated depreciation/amortization	<u>11,300,709</u>	<u>1,209,607</u>	<u>640,469</u>	<u>11,869,847</u>
Total capital assets, depreciable/amortizable, net	<u>8,355,044</u>	<u>402,159</u>	<u>93,471</u>	<u>8,663,732</u>
Net book value of capital assets	<u>\$ 9,259,252</u>	<u>\$ 402,159</u>	<u>\$ 93,471</u>	<u>\$ 9,567,940</u>

NOTES TO THE BASIC FINANCIAL STATEMENTS

For the year ended June 30, 2016, depreciation expense of \$1,209,607 on capital assets was charged to the District's activities as follows:

Permitting	\$ 224,704
Enforcement / Ag Burning	443,616
Plan and Rule Development	20,696
Mobile Sources	73,916
Outreach and Communications	29,939
Air Quality Analysis / Air Monitoring	<u>416,736</u>
Total Depreciation Expense	<u>\$ 1,209,607</u>

4. COMPENSATED ABSENCES

When employment with the District is terminated, an employee will receive compensation for all unused annual leave hours.

The following is a summary of earned compensated absences of the District for the year ended June 30, 2016:

July 1, 2015 Balance	\$3,066,067
Plus: Additions	2,409,291
Less: (Reductions)	<u>(2,122,663)</u>
June 30, 2016 Balance	<u>\$3,352,695</u>
Amount Due Within One Year	<u>\$ 244,249</u>
Amount Due More Than One Year	<u>\$3,108,446</u>

5. PENSIONS

General Information about the Pension Plan

Plan Description

The Kern County Employees' Retirement Association (KCERA) was established on January 1, 1945 by the County of Kern Board of Supervisors under the provisions of the County Employees' Retirement Law of 1937 (CERL). KCERA is a cost-sharing, multiple-employer defined benefit plan (the Plan) covering all permanent employees of the County of Kern and of the following agencies: Berrenda Mesa Water District, Buttonwillow Recreation and Park District, East Kern Cemetery District, Inyokern Community Services District, Kern County Water Agency, Kern Mosquito and Vector Control District, North of the River Sanitation District, San Joaquin Valley Unified Air

NOTES TO THE BASIC FINANCIAL STATEMENTS

Pollution Control District, Shafter Recreation and Park District, West Side Cemetery District, West Side Mosquito and Vector Control District, West Side Recreation and Park District, and Kern County Superior Court. The Plan is administered by the Kern County Board of Retirement, which consists of nine members and two alternate members. KCERA issues a Comprehensive Annual Financial Report (CAFR) that includes financial statements and required supplementary information for KCERA. The CAFR is available at www.kcera.org or by contacting KCERA's office at 11125 River Run Blvd., Bakersfield, CA 93311 or by calling (661) 381- 7700.

Summary of Plans and Eligible Participants

All regular, full-time employees of the County of Kern or contracting districts who work 50% or more of the regular standard hours required become members of KCERA effective on the first day of the payroll period following the date of hire.

General Tier I and Tier II members are eligible to retire at age 70 regardless of service or at age 50 with 10 or more years of retirement service credit. A member with 30 years of service is eligible to retire regardless of age. General Tier III members are eligible to retire at age 70 regardless of service or at age 52 with 5 or more years of retirement service credit.

Benefits Provided

The retirement benefit the member will receive is based on age at retirement, final average compensation (FAC), years of retirement service credit and benefit tier.

General member benefits for Tier I and Tier II are calculated pursuant to California Government Code Sections 31676.17 and 31676.01, respectively. The monthly allowance is equal to 1/50th of FAC times years of accrued retirement service credit times an age factor from Section 31676.17 (Tier I), or 1/90th of FAC times years of accrued retirement service credit times an age factor from Section 31676.01 (Tier II). General Tier III member benefits are calculated pursuant to the provisions found in California Government Code Section 7522.20(a). The monthly allowance is equal to the FAC multiplied by years of accrued retirement credit multiplied by an age factor from Section 7522.20(a).

For general members in Tiers I and II, the maximum monthly retirement allowance is 100% of FAC. For General Tier III members, there is no limit on the maximum monthly allowance relative to FAC.

The maximum amount of "compensation earnable" that can be taken into account for 2015 for members with membership dates on or after July 1, 1996 but before January 1, 2013 is \$265,000. For General Tier III members who joined KCERA on or after January 1, 2013, the maximum "pensionable compensation" that can be taken into account for 2015 is \$117,020 for those enrolled in Social Security. These limits are adjusted on an annual basis. Members are exempt from paying member contributions and employers

NOTES TO THE BASIC FINANCIAL STATEMENTS

are exempt from paying employer contributions on compensation in excess of the annual cap.

FAC consists of the highest 12 consecutive months of compensation earnable for General Tier I and General Tier IIA members. FAC consists of the highest 36 consecutive months of pensionable compensation for General Tier IIB and General Tier III members.

The member may elect an unmodified retirement allowance or choose to have the allowance modified by one of four options. The unmodified option provides the highest monthly benefit and a 60% continuance to an eligible surviving spouse or domestic partner when the member dies. An eligible spouse or partner is someone married to or registered with the member for at least one year prior to the effective retirement date. Certain surviving spouses or partners may also be eligible for a benefit continuance if the marriage or partnership occurred at least two years prior to the date of death and if the surviving spouse or partner is age 55 or older as of the date of death. Retirement allowance options are irrevocable once elected.

Death Benefits

An active member's beneficiary is entitled to receive death benefits, which consist of accumulated contributions, plus interest, and one month's salary for each full year of service, up to a maximum of six months of salary.

If a member is vested and the death is not the result of a job-caused injury or disease, the spouse or registered domestic partner will be entitled to receive a lifetime monthly allowance equal to 60% of the retirement allowance to which they would have been entitled if they had retired with a nonservice-connected disability on the date of the member's death. If there is no eligible spouse or partner, the same choice is given to the member's minor children who are under the age of 18 (continuing to age 22 if enrolled full-time in an accredited school).

If a member dies in the performance of duty, the spouse or registered domestic partner receives a lifetime monthly allowance equal to at least 50% of the member's final average compensation. If there is no eligible spouse or partner, this benefit will apply to the member's minor children who are under the age of 18 (continuing to age 22 if enrolled full-time in an accredited school).

If a member dies after retirement, a death benefit of \$5,000 (increased from \$3,000 to \$5,000 on January 1, 2015) is payable to their designated beneficiary or the estate.

If the retirement was for service-connected or nonservice-connected disability and the member chose the unmodified allowance option, their surviving spouse, registered domestic partner or minor children will receive a monthly continuance equal to 60% of the benefit.

NOTES TO THE BASIC FINANCIAL STATEMENTS

If the retirement was for service-connected disability, their spouse, registered domestic partner or minor children will receive a 100% continuance of the member's benefit.

Disability Benefits

A member with five years of service, regardless of age, who becomes permanently incapacitated from the performance of duty will be eligible for a nonservice-connected disability retirement. Any member who becomes permanently incapacitated from the performance of duty as a result of an injury or disease arising out of and in the course of employment is eligible for a service-connected disability, regardless of service length or age.

Cost-of-Living Adjustments

An annual cost-of-living adjustment (COLA) of up to 2.0% was adopted for all retirees and continuance beneficiaries as of April 1, 1973. An additional 0.5% COLA was granted by the Ventura Settlement as of April 1, 2002, resulting in a maximum COLA of 2.5%, depending on the rate of inflation.

Supplemental Benefits

The Board of Retirement and the Kern County Board of Supervisors adopted Government Code Section 31618 on April 23, 1984, which provides for the establishment of the Supplemental Retiree Benefit Reserve (SRBR). The SRBR is used only for the benefit of future and current retired members and their beneficiaries. The supplemental benefit is not a guaranteed benefit. The distribution of the SRBR is determined by the Board of Retirement. SRBR currently provides for 80% purchasing power protection and a \$5,000 death benefit.

Contributions

Per Article 16 of the Constitution of the State of California, contribution requirements of the active employees and the participating employers are established and may be amended by the KCERA Board of Retirement. Depending upon the applicable plan, employees are required to contribute a certain percent of their annual pay. For each of the plans, the District's contractually required contribution (formerly known as the actuarially required contribution (ARC)) rate for the year ended June 30, 2016, was a specified percent of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year. Additional amounts required to finance any unfunded accrued liability are the responsibility of the plan sponsors. Contributions to the pension plan from the District were \$8,569,624 for the year ended June 30, 2016. Active members are plan members who are currently accruing benefits and/or paying contributions into the applicable plan.

Eligible employees and their beneficiaries are entitled to pension, disability and survivors' benefits under the provision of the CERL with the establishment of KCERA on

NOTES TO THE BASIC FINANCIAL STATEMENTS

January 1, 1945. As a condition of participation under the provisions of the CERL, members are required to pay a percentage of their salaries, depending up their age at date of entry in the Plan, membership type and benefit tier.

Member contribution rates for fiscal year 2015 ranged from 4.25% to 17.50% and were applied to the member's base pay plus compensable special pay; they were calculated based on the member's KCERA entry age and actuarially calculated benefits. Members are required to contribute depending on the member's tier, employer and bargaining unit.

Interest is credited to member contributions semi-annually on June 30 and December 31, in accordance with Article 5.5 of the CERL. Member contributions and credited interest are refundable upon termination of membership.

Each year, an actuarial valuation is performed for the purpose of determining the funded ratio of the retirement plan and the employer contributions that are necessary to pay benefits accruing to KCERA members not otherwise funded by member contributions or investment earnings. The employer contribution rates are actuarially determined by using the Entry Age Normal Actuarial Cost method. The Plan's employer rates provide for both normal cost and a contribution to amortize any unfunded or overfunded actuarial accrued liabilities. Contribution rates determined in each actuarial valuation (as of June 30) apply to the fiscal year beginning 12 months after the valuation date. Employer rates for fiscal year 2015 ranged from 31.50% to 56.28% of covered payroll, with a combined average of 42.00% for all employers.

Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

At June 30, 2016, the District reported a liability of \$74,985,888 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015 and the liability used to calculate the net pension liability was determined by an actuarial valuation date June 30, 2014. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all Pension Plan participants, actuarially determined. At June 30, 2015, the District's proportion was 3.4037%, compared to 3.2966% at June 30, 2014, an increase of 0.1071%

For the year ended June 30, 2016, the District recognized pension expense of \$9,129,618. Pension expense represents the change in the net pension liability during the measurement period, adjusted for actual contributions and the deferred recognition of changes in investment gain/loss, actuarial gain/loss, actuarial assumptions or method

NOTES TO THE BASIC FINANCIAL STATEMENTS

and plan benefits. At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes of assumptions	\$ 4,330,319	\$ -
Change in actual vs. proportionate contributions	2,484,741	-
Contributions subsequent to measurement date	8,569,623	-
Difference between prior year actuarial and actual employer contribution	51,080	-
Change in proportion	-	129,557
Difference between expected and actual experience	-	3,658,528
Difference between projected and actual earnings on pension plan	-	17,959
	\$ 15,435,763	\$ 3,806,044

Deferred outflows of resources and deferred inflows of resources above represent the unamortized portion of changes to net pension liability to be recognized in future periods in a systematic and rational manner.

The District contributions of \$8,569,623 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Fiscal Year Ended	Amount
2017	\$ 497,752
2018	497,752
2019	497,752
2020	1,514,368
2021	1,393
Thereafter	-
	\$ 3,009,016

Actuarial Assumptions

The total pension liability as of June 30, 2015 was determined by an actuarial valuation as of June 30, 2014. The actuarial assumptions used were based on the results of an experience study for the period from July 1, 2010 through June 30, 2013. The following actuarial assumptions were applied to all periods included in the measurement:

Inflation:	3.25%
Salary Increases:	General: 4.25% to 9.25%. Varies by service, including inflation.

NOTES TO THE BASIC FINANCIAL STATEMENTS

Investment Rate of Return:	7.50%, net of pension plan investment expenses, including inflation.
Administrative Expenses:	0.90% of payroll allocated to both the employer and member based on the components of the total contribution rate (before expenses) for the employer and member.
Other Assumptions:	See analysis of actuarial experience from July 1, 2010 to June 30, 2013.

The Entry Age Actuarial Cost Method used in KCERA's annual actuarial valuation has also been applied in measuring the Service Cost and Total Pension Liability (TPL) with one exception. For purposes of measuring the Service Cost and TPL, KCERA has reflected the same plan provisions used in determining the member's Actuarial Present Value of Projected Benefits. This is different from the version of this method applied in KCERA's annual funding valuation, where the Normal Cost and Actuarial Accrued Liability are determined as if the current benefit accrual rate had always been in effect.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns net of pension plan investment expenses and inflation) are developed for each major asset class. This data is combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and by adding expected inflation. The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation but before investment expenses, used in the derivation of the long-term expected investment rate of return assumption are summarized below:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Large Cap U.S. Equity Small/Mid-Cap	19%	5.92%
U.S. Equity Developed International	4%	6.49%
Inflation Sensitive	18%	6.90%
Equity Emerging Markets Equity	4%	8.34%
Core Bonds	18%	0.73%
High Yield Bonds	4%	2.67%
Emerging Market Debt	4%	4.00%
TIPS	3%	0.35%
Real Estate	5%	4.96%
Commodities	6%	4.35%
Hedge Funds	10%	4.30%
Private Equity	5%	8.10%
Total	100%	

NOTES TO THE BASIC FINANCIAL STATEMENTS

Discount Rate

The discount rate used to measure the total pension liability was 7.50% as of June 30, 2015. The projection of cash flows used to determine the discount rate assumed member contributions would be made at the current contribution rate and that employer contributions would be made at rates equal to the actuarially determined contribution rates.

For this purpose, only employee and employer contributions intended to fund benefits for current plan members and their beneficiaries are included. Projected employer contributions intended to fund the service costs for future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2015.

The discount rate assumptions have been developed without taking into consideration any impact of the 50/50 allocation of future excess earnings between the retirement and Supplemental Retiree Benefit Reserve (SRBR) asset pools.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability as of June 30, 2015, calculated using a discount rate of 7.50%, and what the net pension liability would be if it were calculated using a discount rate that is one point lower (6.50%) or one point higher (8.50%) than the current rate:

	1% Decrease 6.50%	Discount Rate 7.50%	1% Increase 8.50%
District's proportionate share of the net retirement plan liability	\$ 100,795,482	\$ 74,985,888	\$ 53,636,165

Pension Plan Fiduciary Net Position

Detailed information about the pension fund's fiduciary net position is available in the separately issued KCERA CAFR.

6. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District participates in a joint powers authority, the Special District Risk Management Authority (SDRMA), whose purpose is to develop and fund programs of excess insurance

NOTES TO THE BASIC FINANCIAL STATEMENTS

for comprehensive liability, workers' compensation, property and employee blanket bonds for its member districts.

For the fiscal year 2015-16, the District contributed \$312,251 to the SDRMA. The District's contributions represented 0.94% of all member contributions.

The District has coverage against claims up to a limit of \$10,000,000 for comprehensive general and auto liability and public official's liability, up to a limit of \$5,000,000 for workers' compensation liability and up to \$400,000 for public employees blanket bond and for the replacement cost of property. The District is entirely self-insured for vehicle damage.

No claim settlement exceeded insurance coverage during the last three fiscal years. Also, during this period, no significant reduction in insurance coverage occurred.

7. DEFERRED COMPENSATION PLAN

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan permits them to defer a portion of their salary until future years. For employees hired on or after July 31, 2012, the District provides a match of employee contributions not to exceed six percent of their base salary. These funds are not available to employees until termination, retirement, death or unforeseen emergency.

The deferred compensation plan monies are invested in various investment funds as selected by the participating employees. The available investment options include a fixed return fund, stock fund, bond fund and a money market fund. All amounts of compensation deferred under the plan and all income attributed to those amounts are held in trust for the exclusive benefit of plan participants and their beneficiaries.

Effective January 1, 1999, federal legislation requires the Section 457 plan assets to be placed in trust for the exclusive use of the plan participants and their beneficiaries. The District's deferred compensation administrator, MassMutual Financial Group, qualifies as a plan trustee to meet the federal requirements. In accordance with GASB Statement No. 32, the District no longer reports plan assets and liabilities in its financial statements. As of June 30, 2016, investments with a fair value of \$26,458,100 were held in trust.

NOTES TO THE BASIC FINANCIAL STATEMENTS

8. COMMITMENTS AND ENCUMBRANCES

Operating Leases

The District is obligated under operating leases for the rental of office space. The District's rental expense was \$453,084 for the year ended June 30, 2016. Future minimum lease payments under these leases are as follows:

Year Ending June 30,	
2017	\$ 456,408
2018	456,408
2019	473,688
2020	490,968
2021	490,968
2022 - 2023	1,055,376
Total	<u>\$ 3,423,816</u>

Encumbrances

The District utilizes encumbrance accounting in its governmental fund as explained in Note 1.D. Total encumbrances for the General Fund as of June 30, 2016 were \$1,809,111. Encumbrances are categorized as Assigned Fund Balance.

9. PENDING LITIGATION

There are various lawsuits and claims filed against the District which, in the opinion of the District Counsel, will be resolved with no material adverse effect on the District's financial position or results of operations.

10. EXTRAORDINARY ITEM

During the fiscal year, an Air Monitoring Station (AMS) and the capital assets inside were impaired. The Corcoran AMS was damaged by a fire. The assets had a carrying value of \$86,666, which was written off as of July 1, 2015. The loss was offset by an insurance recovery of \$157,155. The net amount of \$70,489 is reported on the Statement of Activities as General Revenue with a description of Gain on disposal of capital assets.

11. SUBSEQUENT EVENTS

In compliance with accounting standards generally accepted in the United States of America, management has evaluated events that have occurred after year-end to determine if these events are required to be disclosed in these basic financial statements. Management has determined that no events require disclosure in accordance with accounting standards. These subsequent events have been evaluated through December 27, 2016, which is the date the basic financial statements were issued.

NOTES TO THE SCHEDULE OF GENERAL FUND BUDGETED AND ACTUAL EXPENDITURES BUDGETARY BASIS

Note 1 – GENERAL FUND BUDGETARY BASIS RECONCILIATION

The General Fund Budgetary Comparison Schedule on page 53 presents comparisons of the legally Adopted Budget with actual data on a budgetary basis. Since accounting principles applied for purposes of developing expenditure data on a budgetary basis differ from those used to present financial statements in conformity with generally accepted accounting principles (GAAP), a reconciliation of differences is presented below for the year ended June 30, 2016.

Excess of revenues over expenditures (GAAP Basis)	\$ 2,069,457
Adjustments from budget cash basis to modified accrual basis	2,403,241
Excess of revenues over expenditures (Budgetary Basis)	\$ 4,472,698

Note 2 - BUDGETING

In accordance with the provisions of the State Health and Safety Code Section 40131, the District's Formation Agreement, and the San Joaquin Valley Unified Air Pollution Control District's (District) Administrative Code, the District prepares and legally adopts a final balanced budget on or before June 30 of each fiscal year. The final Adopted Budget is available for review on the District's website at www.valleyair.org.

Budgetary control is exercised at the object level. All amendments or transfers of appropriations between these levels are authorized by the Executive Director/Air Pollution Control Officer and must be approved by the District Governing Board (Board). The Board also must approve supplemental appropriations financed by unanticipated revenues.

Expenditures, except for Capital Outlays, are controlled at the object level for all program budgets within the District. Capital assets are controlled at the sub-object level.

STATISTICAL SECTION

The information in this section is presented as supplemental data for the benefit of the readers of the Comprehensive Annual Financial Report. The objectives of statistical section information are to provide financial statement users with additional historical perspective, context, and detail to assist in using the information in the financial statements, notes to financial statements, and required supplementary information to understand and assess the District's economic condition.

Contents

Financial Trends

These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain trend information to help the reader assess the District's most significant revenue source, DMV Surcharge Fees.

Operating Information

These schedules contain data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

Demographic and Economic Information

These schedules offer economic and demographic indicators to help the reader understand the socioeconomic environment within which the District's financial activities take place.

Source: Unless otherwise noted, the information in these schedules was derived from the District's comprehensive annual financial reports for the relevant year.

San Joaquin Valley Unified Air Pollution Control District

Miscellaneous Statistics

District Established:	March 21, 1991
Area Covered:	25,000 Square Miles
Counties Included in District:	San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, and Tulare Counties, and the Valley portion of Kern County
Population:	4,046,444 (2016 Estimate)
Transportation:	Two Transcontinental Railroads – Burlington Northern, Santa Fe and the Union Pacific Six Commercial Airports – Stockton Metro, Modesto, Merced Municipal, Fresno Yosemite, Visalia Municipal, and Meadows Field (Bakersfield) Two Major Interstate Freeways – California State Highway 99 and U.S. Interstate Highway 5 One Major Port – Port of Stockton
Visitor Destinations:	Yosemite National Park, Kings Canyon National Park, Sequoia National Park
Number of Registered Vehicles:	2,898,000 (6/30/16) Estimate
Stationary Sources of Air Pollution	Oil Refineries, Oil Production Equipment, Power Regulated Plants, Manufacturing and Processing Facilities, Boilers and other Combustion Equipment, Emergency Generators, Paint Spray Booths, Service Stations, Agricultural Operations, and Dry Cleaners
Number of Sources:	Approximately 13,700 operating locations with more than 33,000 Permits to Operate and 6,200 Agricultural Conservation Management Practice Plans
Number of Air Monitoring Stations:	29, District, Air Resources Board, Tribal, and National Park Service Combined (Including 2 Lower Air Profilers)
District Full-time Authorized Positions:	310
Adopted Fiscal Year 2016-17 Budget:	\$198,036,968

Northern Region

Serving San Joaquin, Stanislaus and Merced counties

4800 Enterprise Way

Modesto, CA 95356-8718

(209) 557-6400 FAX (209) 557-6475

Central Region

Serving Madera, Fresno and Kings counties

1990 E. Gettysburg Avenue

Fresno, CA 93726-0244

(559) 230-6000 FAX (559) 230-6061

Southern Region

Serving Tulare and Valley air basin portions of Kern counties

34946 Flyover Court

Bakersfield, CA 93308-9725
