Surface Harvested Pruning Information

Total acres of surface harvested nuts farmed at all locations in the San Joaquin Valley:

Burn Location Description:

Location Number:

Type of Nuts (Almonds, Walnuts, Pecans, or Chestnuts):

Acres Requested to Burn (Report in Field Acres):

Eligible permit holders may burn up to 20 total acres of surface harvested nut prunings per growing season (July 1st – June 30th) across all locations they operate.

State Mandated Phase-Out of Surface Harvested Pruning Burning

In accordance with SB 705 all surface harvested pruning burning in the San Joaquin Valley will be phased out according to the following schedule. New restrictions begin Jan 1 of each year. Be aware of the applicable prohibition dates for your operation and plan ahead. **The District cannot guarantee that allocation will be available leading up to the prohibition dates. Prunings will not be allowed to burn after the applicable prohibition date, even if they have been placed on the waiting list.**

	2022	2023	2024	2025
Prunings (≤20 Acres)	Prohibited at operations with >200 acres of total surface harvested nuts at all locations	Prohibited at operations with >50 acres of total surface harvested nuts at all locations	No Changes	Prohibited for all operations
Prunings (>20 Acres)	Already prohibited for all size operations
