

AG PUMP ENGINE REPLACEMENT

Let us help offset your costs for a cleaner, more efficient ag pump

The Valley Air District is offering farmers 85% of eligible costs to replace existing agricultural pump engines with a newer and cleaner engine or motor. Get paid to replace your stationary or transportable agricultural pump engines and help reduce emissions in the Valley.

REQUIREMENTS

- » Existing engine must be 25 horsepower or greater
- » Must be in compliance with Rule 4702

INCENTIVE AMOUNTS

Diesel to Diesel Engine	85% of costs
Diesel/Natural Gas/Propane to Electric Motor	85% of Costs + 50% of line extension fees (if applicable)
